ACKNOWLEDGMENT OF COMPLETE CERTIFICATION
OF LIGHTING CONTROL DEVICES

Dear Manufacturer: Geneviève Drouin, GENTEC, INC.

On April 16, 2002, I received your certification statement via e-mail dated April 16, 2002 for automatic time switch lighting control device model numbers PREMCG**K4 and PREMCG**K8 sold under the brand name of Kameleon. I reviewed your certification statement for compliance with Section 119 of California's Energy Efficiency Standards for Residential and Nonresidential Buildings. I am pleased to inform you that your certification statement is complete and accurate on its face. The information complies with the part of Section 119 that states:

Any automatic time switch control device, occupant-sensing device, automatic daylighting control device, or interior photocell sensor device may be installed only if the manufacturer has certified to the Commission, that the device complies with all of the applicable requirements of subsections (a)-(g), and if the device is installed in compliance with subsection (h).

The above models are certified to this standard only. These models are currently in our database and will appear in the next edition of our on-line directory of certified lighting control and demand control ventilation devices. The Commission's computer program verifies compliance based on your certification data. Should the standard be changed in the future, new certification may be required at that time. You will be notified if any model fails this computer edit program.

Your brand code for Kameleon is KML. Please use this code for future submittals under this brand.

Please make future certifications using the enclosed instructions and certification form. If you have any questions or changes to report, please contact me by phone at (916) 654-4080. Or, you can contact either Carolyn McCormack at (916) 653-8232 or Jim Holland at (916) 654-4091. Also, you must inform us in writing any time your company changes names, addresses (either street and/or mailing address), telephone number, FAX number or contact person(s). Please address all appliance certification related correspondence to: Appliance Certification Program; Residential Buildings & Appliances Office; California Energy Commission; 1516 Ninth St., MS-25; Sacramento, CA 95814-5512 or by e-mail at appliances@energy.state.ca.us. Any certification data addressed incorrectly will be delayed.

Sincerely,

A handwritten signature in cursive script that reads "Betty Chrisman".
